USER'S MANUAL

**CASIO®**

---

## Safety Precautions

- To use this product safely and correctly, read this manual thoroughly and operate as instructed.  
After reading this guide, keep it close at hand for easy reference.  
Please keep all informations for future reference.
- Always observe the warnings and cautions indicated on the product.

## About the icons

In this guide various icons are used to highlight safe operation of this product and to prevent injury to the operator and other personnel and also to prevent damage to property and this product. The icons and definitions are given below.

Indicates that there is a risk of severe injury or death if used incorrectly.

Indicates that injury or damage may result if used incorrectly.

## Icon examples

To bring attention to risks and possible damage, the following types of icons are used.

The  $\triangle$  symbol indicates that it includes some symbol for attracting attention (including warning). In this triangle the actual type of precautions to be taken (electric shock, in this case) is indicated.

The  $\otimes$  symbol indicates a prohibited action. In this symbol the actual type of prohibited actions (disassembly, in this case) will be indicated.

The  $\bullet$  symbol indicates a restriction. In this symbol the type of actual restriction (removal of the power plug from an outlet, in this case) is indicated.

---

## Warning!

---

## Handling the register

**Should the register malfunction, start to emit smoke or a strange odor, or otherwise behave abnormally, immediately shut down the power and unplug the AC plug from the power outlet. Continued use creates the danger of fire and electric shock.**

- Contact CASIO service representative.

**Do not place containers of liquids near the register and do not allow any foreign matter to get into it. Should water or other foreign matter get into the register, immediately shut down the power and unplug the AC plug from the power outlet. Continued use creates the danger of shorting, fire and electric shock.**

- Contact CASIO service representative.

**Should you drop the register and damage it, immediately shut down the power and unplug the AC plug from the power outlet. Continued use creates the danger of shorting, fire and electric shock.**

- Attempting to repair the register yourself is extremely dangerous. Contact CASIO service representative.
-

---

## **Warning!**

**Never try to take the register apart or modify it in any way. High-voltage components inside the register create the danger of fire and electric shock.**

- Contact CASIO service representative for all repair and maintenance.
- 

### **Power plug and AC outlet**

**Use only a proper AC electric outlet (100V~240V) . Use of an outlet with a different voltage from the rating creates the danger of malfunction, fire, and electric shock. Overloading an electric outlet creates the danger of overheating and fire.**

**Make sure the power plug is inserted as far as it will go. Loose plugs create the danger of electric shock, overheating, and fire.**

- Do not use the register if the plug is damaged. Never connect to a power outlet that is loose.
- 

**Use a dry cloth to periodically wipe off any dust built up on the prongs of the plug. Humidity can cause poor insulation and create the danger of electric shock and fire if dust stays on the prongs.**

**Do not allow the power cord or plug to become damaged, and never try to modify them in any way. Continued use of a damaged power cord can cause deterioration of the insulation, exposure of internal wiring, and shorting, which creates the danger of electric shock and fire.**

- Contact CASIO service representative whenever the power cord or plug requires repair or maintenance.
- 

## **Caution!**

**Do not place the register on an unstable or uneven surface. Doing so can cause the register — especially when the drawer is open — to fall, creating the danger of malfunction, fire, and electric shock.**

**Do not place the register in the following areas.**

- Areas where the register will be subject to large amounts of humidity or dust, or directly exposed to hot or cold air.
- Areas exposed to direct sunlight, in a close motor vehicle, or any other area subject to very high temperatures.

**The above conditions can cause malfunction, which creates the danger of fire.**

**Do not overlay bend the power cord, do not allow it to be caught between desks or other furniture, and never place heavy objects on top of the power cord. Doing so can cause shorting or breaking of the power cord, creating the danger of fire and electric shock.**

**Be sure to grasp the plug when unplugging the power cord from the wall outlet. Pulling on the cord can damage it, break the wiring, or cause short, creating the danger of fire and electric shock.**

**Never touch the plug while your hands are wet. Doing so creates the danger of electric shock. Pulling on the cord can damage it, break the wiring, or cause short, creating the danger of fire and electric shock.**

**Never touch the printer head and the platen.**

## Unpacking the register

### Welcome to the CASIO PCR-T465!

Congratulations upon your selection of a CASIO Electronic Cash Register, which is designed to provide years of reliable operation.

Operation of a CASIO cash register is simple enough to be mastered without special training. Everything you need to know is included in this manual, so keep it on hand for reference.

Consult your CASIO dealer if you have any questions about points not specifically covered in this manual.

### GUIDELINES LAID DOWN BY FCC RULES FOR USE OF THE UNIT IN THE U.S.A. (Not applicable to other areas)

**FCC WARNING:** This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

**WARNING:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The main plug on this equipment must be used to disconnect main power.  
Please ensure that the socket outlet is installed near the equipment and shall be easily accessible.

*Please keep all information for future reference.*

# Getting Started

This section outlines how to unpack the cash register and get it ready to operate. You should read this part of the manual even if you have used a cash register before. The following is the basic set up procedure, along with page references where you should look for more details.

## 1. Remove the cash register from its box.

Make sure that all of the parts and accessories are included.

Getting Started

## 2. Remove the tape holding parts of the cash register in place.

Also remove the small plastic bag taped to the printer cover. Inside you will find the mode keys.

## 3. Install the three memory backup batteries.

1. Remove the printer cover and open the platen arm.

printer cover

platen arm

2. Remove the battery compartment cover. Slide the cover and pull it up.

battery compartment cover

## 3. Install the three memory backup batteries. (continued...)

3. Note the (+) and (-) markings in the battery compartment. Load a set of three new SUM-3 (UM-3) batteries so that their positive (+) and negative (-) ends are facing as indicated by the markings.

4. Replace the battery compartment cover.

5. Close the platen arm and replace the printer cover.

### Important!

These batteries protect information stored in your cash register's memory when there is a power failure or when you unplug the cash register. Be sure to install these batteries.

### Precaution!

Incorrectly using batteries can cause them to burst or leak, possibly damaging the interior of the cash register. Note the following.

- Be sure that the positive (+) and negative (-) ends of the batteries are facing as marked in the battery compartment when you load them into the unit.
- Never mix batteries of different types.
- Never mix old batteries with new ones.
- Never leave dead batteries in the battery compartment.
- Remove the batteries if you do not plan to use the cash register for long periods.
- Replace the batteries at least once every two years, no matter how much the cash register is used during the period.

### WARNING!

- Never try to recharge the batteries supplied with the unit.
- Do not expose batteries to direct heat, let them become shorted or try to take them apart.

Keep batteries out of the reach of small children. If your child should swallow a battery, consult a physician immediately.

# 4. Install receipt/journal paper.

### Important!

Take away the head protection sheet from the printer and close the platen arm.

### Caution! (in handling the thermal paper)

- Never touch the printer head and the platen.
- Unpack the thermal paper just before your use.
- Avoid heat/direct sunlight.
- Avoid dusty and humid places for storage.
- Do not scratch the paper.
- Do not keep the printed paper under the following circumstances:  
High humidity and temperature/direct sunlight/contact with glue, thinner or a rubber eraser.

## To install receipt paper

**Step 1**  
Remove the printer cover.

**Step 4**  
Put the leading end of the paper over the printer.

**Step 2**  
Open the platen arm.

**Step 5**  
Close the platen arm slowly until it locks steadily.

**Step 3**  
Ensuring the paper is being fed from the bottom of the roll, lower the roll into the space behind the printer.

**Complete**  
Replace the printer cover, passing the leading end of the paper through the cutter slot. Tear off the excess paper.

## To install journal paper

**Step 1**  
Remove the printer cover.

**Step 2**  
Open the platen arm.

**Step 7**  
Slide the leading end of the paper into the groove on the spindle of the take-up reel and wind it onto the reel two or three turns.

**Step 3**  
Ensuring the paper is being fed from the bottom of the roll, lower the roll into the space behind the printer.

**Step 8**  
Replace the paper guide of the take-up reel.

**Step 4**  
Put the leading end of the paper over the printer.

**Step 9**  
Place the take-up reel into place behind the printer, above the roll paper.

**Step 5**  
Close the platen arm slowly until it locks steadily.

**Step 10**  
Press the **FEED** key to take up any slack in the paper.

During machine installation, press the **FEED** key after power on.

**Step 6**  
Remove the paper guide of the take-up reel.

**Complete**  
Replace the printer cover.

## 5. Plug the cash register into a wall outlet.

Be sure to check the sticker (rating plate) on the side of the cash register to make sure that its voltage matches that of the power supply in your area.

## 6. Insert the mode key marked “PGM” into the mode switch.

## 7. Turn the mode key to the “REG” position.

The display should change to the following.

## 8. Set the date.

Example:

June 15, 2002 ⇨ **0 2 0 6 1 5**

## 9. Set the time.

Example:

08:20 AM ⇨ **0 8 2 0**

09:45 PM ⇨ **2 1 4 5**

## 10. Select printouts receipt or journal.

### Note !

If you need journal and are sometimes required receipts by customers, select "issue receipt". After business hours, issue the electronic journal report.

# 11. Tax table programming

## Programming automatic tax calculation

**Important!**

After you program the tax calculations, you also have to individually specify which departments (page 27) and PLUs (page 29) are to be taxed.

For this cash register to be able to automatically register state sales tax, you must program its tax tables with tax calculation data from the tax table for your state. There are three tax tables (U. S.) and four tax tables (Canada) that you can program for automatic calculation of three/four separate sales taxes.

### Programming for the U.S. tax tables procedure

The procedure to setup the tax table is printed on the guidance receipt. First issue the guidance receipt by the **HELP** key and follow it to set the tax table.

**HELP**

**2 HELP**

**0 1 0 1 HELP**  
(Alabama)

```

ENTER NUMBER THEN
PRESS <HELP> KEY.

01:HOW TO PROGRAM
  DATE AND TIME?

02:HOW TO PROGRAM
  TAX TABLE?

  :
  :

07:WHAT IS THE
  ELECTRONIC JOURNAL?
  
```

```

02:HOW TO PROGRAM

0301:ARIZONA
0401:ARKANSAS
0501:CALIFORNIA
  :
  :
5001:WISCONSIN
5101:WYOMING
  
```

```

PLEASE SELECT YOUR
DISTRICT NUMBER FROM
BELOW TABLE.

1)TURN MODE KEY TO PGM.
2)3<SUBTOTAL>
3)025<SUBTOTAL>

SET TABLE1
4)XXXX <CASH>KEY.

SET TABLE2(IF NECESSARY)
5)XXXX <CASH>KEY.

6)<SUBTOTAL>

XXXX IS DISTRICT NUMBER

ALABAMA
0101: 4%   State
0102: 4.5% State & Local
0103: 5%   State & Local
0104: 5.5% State & Local
  :
  :
0111: 9 %  State & Local
  
```

Follow these steps.

## 11.

### Tax table programming (continued)

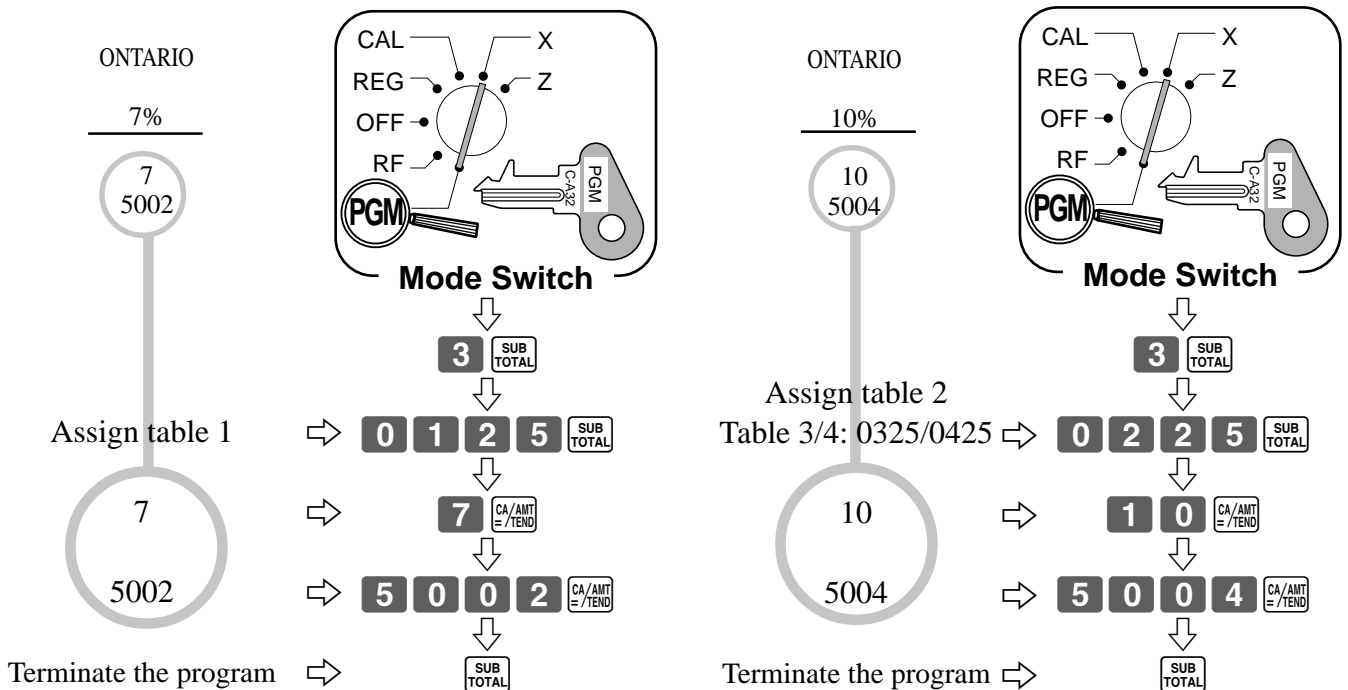

#### Programming for Canadian tax tables procedure

State sales tax calculation data tables for all of the states that make up all Canadian provinces are included on this page. This data is current as of October 30, 1994. Simply find your province in the tax tables and input the data shown in its table.

#### Programming tax table

Example 1: Federal tax 7% (Add-on/round-off)

Example 2: Ontario 10% (Tax-on-tax/Round-off)

• **4 tax tables are used for the following purpose**

Table 1: Used for the federal taxable items.

Table 2: Used for the provincial taxable items.

Table 3/4: Used for the provincial taxable items for different tax table.

**CANADIAN TAX TABLES**

\* Must be programmed into Tax table 2 ~ 4.

* NOVA SCOTIA 10%	* ONTARIO 10%	* QUEBEC 10%	* NEW FOUNDLAND 12%	* ONTARIO 12%	* BRITISH COLUMBIA 6%	* MANITOBA/ SASKATCHEWAN 6%	* ONTARIO 7%	* N.B. & P.E.I 8%	* QUEBEC 9%
10	10	10	12	0	0	6	7	0	9
5004	5004	5004	5004	1	1	5002	5002	1	9002
				4	2			3	
				25	14			25	
				25	24			25	
				25	41			31	
				29	58			43	
				37	74			56	
				45					
				54					

**Important!**

Be sure you use the federal sales tax data with your provincial sales tax data. Even if your province use the same tax rate as another province, inputting the wrong data will result incorrect tax calculations.

# Introducing PCR-T465

## General guide

This part of the manual introduces you to the cash register and provides a general explanation of its various parts.

### Roll paper

You can use the roll paper to print receipts and a journal (page 9 ~ 10).

### Receipt On/Off key

When you are using the printer for receipt printer, you can use this key (in the REG and RF modes only) to turn the printer on and off.

If a customer asks for a receipt while receipt printing is turned off by this key, you can issue a post-finalization receipt (page 45).

### Mode key

There are two types of mode keys: the program key (marked "PGM") and the operator key (marked "OP"). The program key can be used to set the mode switch to any position, while the operator key can select the REG, CAL and OFF position.

### Drawer

The drawer opens automatically whenever you finalize a registration and whenever you issue a read or reset report. The drawer will not open if it is locked with the drawer key.

### Drawer lock

Use the drawer key to lock and unlock the drawer.

### Multipurpose tray

This tray can always be opened if the locking knob is in the unlock position.

Use the locking knob to lock and unlock this tray.

**Program key**

**Operator key**

### Mode switch

Use the mode keys to change the position of the mode switch and select the mode you want to use.

Mode Switch	Mode Name	Description
<b>Z</b>	<b>RESET</b>	Reads sales data in memory and clears the data.
<b>X</b>	<b>READ</b>	Reads sales data in memory without clearing the data.
<b>CAL</b>	<b>CALCULATOR</b>	Use this mode for calculator.
<b>REG</b>	<b>REGISTER</b>	Use this mode for normal registration.
<b>OFF</b>	<b>STAND-BY</b>	Cash register standing by.
<b>RF</b>	<b>REFUND</b>	Use this mode to register refund transaction.
<b>PGM</b>	<b>PROGRAM</b>	Use this mode for cash register programming.

## Lock/unlock the multipurpose tray

### When the cash drawer does not open!

In case of power failure or the machine is in malfunction, the cash drawer does not open automatically. Even in these cases, you can open the cash drawer by pulling drawer release lever (see below).

### Important!

The drawer will not open, if it is locked with a drawer lock key.

## Displays

### Main Display

(alphanumeric + numeric display)

### Pop-up (customer) display

(numeric display)

#### Item registration (by department/PLU)

#### Repeat registration

#### Totalize operation

#### 1 Amount/Quantity

This part of the display shows monetary amounts. It also can be used to show the current time. (The current date is shown in the alphanumeric display.)

#### 2 Item/Key descriptor

When you register an item or key, the item/key descriptor appears here. Mode descriptor is also displayed here.

#### 3 Number of repeats

Anytime you perform a repeat registration (page 26, 30), the number of repeats appears here.

Note that only one digit is displayed for the number of repeats. This means that a “5” could mean 5, 15 or even 25 repeats.

#### 4 Total/Change indicators

When the TOTAL indicator is lit, the displayed value is monetary total or subtotal amount.

When the CHANGE indicator is lit, the displayed value is the change due.

#### 5 Receipt on/off indicators

When the register is in “issuing receipt” mode, under-bar sign is lit on this digit. (REG/RF mode, during standing-by only)

## Keyboard

for the U.S.

### • Register Mode

#### 1 Paper feed key **FEED**

Hold this key down to feed paper from the printer.

#### 2 Receipt on/off key **RECEIPT ON/OFF**

Use this key twice to change the status “receipt issue” or “no receipt.” This key is only effective when the “use printer for receipt printer” in the printer control program is selected. In case of “receipt issue”, the “RECEIPT ON” indicator is lit.

#### 3 Open/Clerk number key **OPEN/CLK#**

It is necessary to select one of these functions (page 47).  
Open key: Use this key to temporarily release a limitation on the number of digits that can be input for a unit price.  
Clerk number key: Use this key to sign clerk on and off the register.

#### 4 Percent key **%**

Use this key to register premiums or discounts.

#### 5 Price key **PRICE**

Use this key to register unit prices for subdepartment.

#### 6 PLU/Subdepartment key **PLU/S.DEPT**

Use this key to input PLU (subdepartment) numbers.

#### 7 Minus key **-**

Use this key to input values for subtraction.

#### 8 Refund key **RF**

Use this key to input refund amounts and void certain entries.

#### 9 Multiplication/For/Date/Time key **X/FOR DATE TIME**

Use this key to input a quantity for a multiplication and registration of split sales of packaged items. Between transactions, this key displays the current time and date.

#### O Post receipt/Currency exchange key **POST RECEIPT /EXCHG**

Post receipt key: Use this key to produce a post-finalization receipt (page 45).

Currency Exchange key: Use this key for calculating subtotal amounts or paying amount due in foreign currency (page 67).

#### A Error correct/Cancel key **ERR.CORR CANCEL**

Use this key to correct registration errors and to cancel registration of entire transactions.

#### B Clear key **C**

Use this key to clear an entry that has not yet been registered.

#### C Ten key pad **0, 1, ~ 9, 00, .**

Use these keys to input numbers.

#### D Department keys **49/73 + 25, ~ 72/96 + 24** (**+ 1, ~ 24**)

Use these keys to register items to departments.

#### E Department shift key **DEPT SHIFT**

Use this key to shift the department key number from 1 through 24 to 25 through 48, 49 to 72, 73 to 96.

<b>49/73</b> + 25	⇒ Dept 01	<b>DEPT SHIFT</b>	<b>DEPT SHIFT</b>	<b>49/73</b> + 25	⇒ Dept 49
<b>50/74</b> - 26	⇒ Dept 02	<b>DEPT SHIFT</b>	<b>DEPT SHIFT</b>	<b>50/74</b> - 26	⇒ Dept 50
:	:	:	:	:	:
<b>72/96</b> + 24	⇒ Dept 24	<b>DEPT SHIFT</b>	<b>DEPT SHIFT</b>	<b>72/96</b> + 24	⇒ Dept 72
<b>DEPT SHIFT</b>	<b>49/73</b> + 25	<b>DEPT SHIFT</b>	<b>DEPT SHIFT</b>	<b>49/73</b> + 25	⇒ Dept 73
:	:	:	:	:	:
<b>DEPT SHIFT</b>	<b>72/96</b> + 24	<b>DEPT SHIFT</b>	<b>DEPT SHIFT</b>	<b>72/96</b> + 24	⇒ Dept 96

for Canada

**F Non-add key** #

Use this key to print reference number (to identify a personal check, credit card, etc.) during a transaction, use this key after some numerical entries.

**G Help key** HELP

Use this key to look up the procedures to set date/time, tax table etc.

**H No sale key** NS

Use this key to open the drawer without registering anything.

**I Received on account/Tax shift 1 key** RC/T/S1

Received on account key: Use this key following a numeric entry to register money received for non-sale transactions.

Tax shift 1 key: Use this key without a numeric entry to change the Taxable 1 status of the next item.

**J Paid out/Tax shift 2 key** PD/T/S2

Paid out key: Use this key following a numeric entry to register money paid out from the drawer.

Tax shift 2 key: Use this key without a numeric entry to change the Taxable 2 status of the next item.

**K Charge key** CH

Use this key to register a charge sale.

**L Check key** CHK

Use this key to register a check tender.

**M Merchandise subtotal key** MD/ST

Use this key to display and print the current subtotal (excludes add-on tax) amount.

**N Non-add/No sale key** #/NS

Non-add key: Use this key to print reference number (to identify a personal check, credit card, etc.) during a transaction, use this key after some numerical entries.

No sale key: Use this key to open the drawer without registering anything.

**O Subtotal key** SUB TOTAL

Use this key to display and print the current subtotal (includes add-on tax) amount.

**P Cash amount tendered key** CA/AMT =/TEND

Use this key to register a cash sale.

• **Calculator Mode**

**4 Percent key** %

**6 Memory recall key** PLU/S.DEPT

**B Clear/All clear key** C

**C Ten key pad** 0, 1, ~ 9, 00, .

**H, N Drawer open key** NS, #/NS

**P Equal key** CA/AMT =/TEND

**Q Arithmetic operation key** 49/73 + 25/1, 50/74 - 25/2, 51/75 × 25/3 and 52/76 ÷ 25/4  
+ 1, - 2, × 3 and ÷ 4

## How to read the printouts

- The journal and receipts are records of all transactions and operations.
- The contents printed on receipts and journal are identical, except the date printing line. (The date line is printed on receipts and reports.)
- You can choose the journal skip function (page 46).  
If the journal skip function is selected, the cash register will print the total amount of each transaction, and the details of premium, discount and reduction operations only, without printing department and PLU item registrations on the journal.
- The following items can be skipped on receipts and journal.
  - Time
  - Consecutive number
  - Taxable status
  - Taxable amount

In the operation examples contained in this manual, the print samples are what would be produced if the roll paper is being used for receipts. They are not actual size. Actual receipts are 58 mm wide. Also, all sample receipts and journals are printout images.

# How to use your cash register

The following describes the general procedure you should use in order to get the most out of your cash register.

## BEFORE business hours...

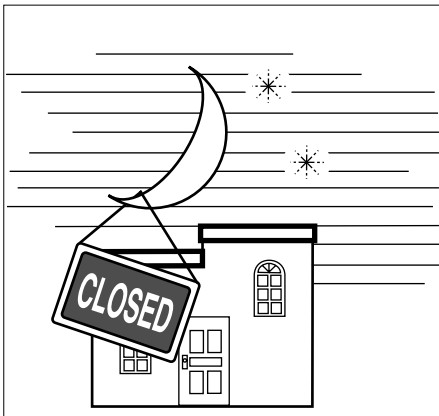

- Check to make sure that the cash register is plugged in securely. Page 11
- Check to make sure there is enough paper left on the roll. Page 9, 10
- Read the financial totals to confirm that they are all zero. Page 75
- Check the date and time. Page 24

## DURING business hours...

- Register transactions. Page 25
- Periodically read totals. Page 74

## AFTER business hours...

- Issue electronic journal report. (if necessary) Page 77
- Reset the daily totals. Page 43
- Remove the journal. Page 86
- Empty the cash drawer and leave it open. Page 18
- Take the cash and journal to the office.

# Basic Operations and Setups

## Displaying the time and date

You can show the time and date on the display of the cash register whenever there is no registration being made.

## To display and clear the time and date

**OPERATION**

**DISPLAY**

Month Day Year

Hour Minutes.  
(24-hour system)

## Preparing coins for change

You can use the following procedure to open the drawer without registering an item. This operation must be performed out of a sale.

(You can use the key instead of the key. See page 39.)

## Opening the drawer without a sale

**OPERATION**

# Preparing and using discounts

This section describes how to prepare and register discount.

## Programming discounts

You can use the **%** key to register discounts (percentage decreases). The more detailed informations about the discount (and premium) are described in the “Registering discounts and premiums” section in the “Convenient Operations and setups” on page 64.

### To program a rate to the **%** key

**Mode Switch**

→ **1** **SUB TOTAL** → [ ] [ ] [ ] [ ] → **%** → **SUB TOTAL**

Preset rate

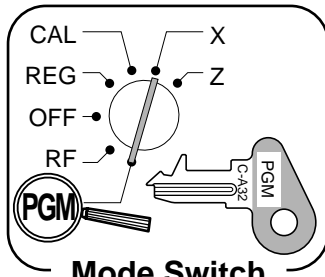

Example:

10% ⇨ **1 0**

5.5% ⇨ **5 . 5**

12.34% ⇨ **1 2 . 3 4**

### To program tax status to the **%** key

**Mode Switch**

→ **1** **SUB TOTAL** → {

- RC / T/S1** (Tax table 1)
- PD / T/S2** (Tax table 2)
- CHK** (Tax table 3)
- ERR CORR CANCEL** (Tax table 4) †
- RC / T/S1** **PD / T/S2** (Tax table 1, 2, 3 and 4) †
- CHK** **ERR CORR CANCEL** (Tax table 1, 2, 3 and 4) †
- # / NS** or **NS** (Non tax)

→ **%** → **SUB TOTAL**

Note: Tax symbols **%** is initialized as all taxable.

- T1: Tax table 1
- T2: Tax table 2
- T3: Tax table 3
- T4: Tax table 4 †(only for the Canadian model)
- \*: All taxable

# Basic Operations and Setups

## Registering discounts

The following example shows how you can use the **[%]** key in various types of registration.

## Discount for items and subtotals

### OPERATION

### RECEIPT

Item 1	Unit price	\$5.00
	Quantity	1
	Dept.	2
	Taxable	(1)
Item 2	Unit price	(\$10.00)
	Quantity	1
	PLU	16
	Taxable	(2)
Discount	Rate	(5%)
Subtotal	Rate	3.5%
Discount	Taxable	(All)
Payment	Cash	\$16.00

( ): Preset value

**5 00 - 2**

**1 6** **PLU/SDEPT**

**[%]**

Applies the preset discount rate to the last item registered.

**MD/ST**

**3 . 5** **[%]**

The input value takes priority of the preset value.

**SUB TOTAL**

**1 6 00** **CA/AMT =/TEND**

REG	06-15-2002	10:30	
			000013
DEPT02	T1	\$5.00	
PLU0016	T2	\$10.00	
	5%		
%	T2	-0.50	
ST		\$14.50	
	3.5%		
%	*	-0.51	
TAX-AMT 1		\$4.82	
TAX 1		\$0.24	
TAX-AMT 2		\$9.17	
TAX 2		\$0.92	
TOTAL		<b>\$ 15.15</b>	
CASH		\$16.00	
CHANGE		\$0.85	

- You can manually input rates up to 4 digits long (0.01% to 99.99%).

## Taxable status of the **[%]** key

- Whenever you perform a discount operation on the last item registered, the tax calculation for discount amount is performed in accordance with the tax status programmed for that item.
- Whenever you perform a discount operation on a subtotal amount, the tax calculation for the subtotal amount is performed in accordance with the tax status programmed for the **[%]** key.

# Preparing and using reductions

This section describes how to prepare and register reductions.

## Programming for reductions

You can use the **[-]** key to reduce single item or subtotal amounts. The following procedure lets you program the tax calculation method for the **[-]** key.

### To program tax calculation status

Note: Tax symbols

T1: Tax table 1

T2: Tax table 2

T3: Tax table 3

T4: Tax table 4 †(only for the Canadian model)

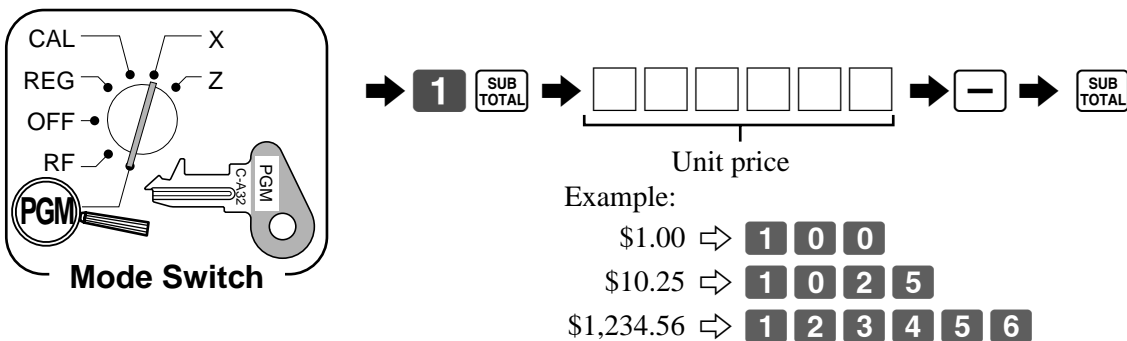

\*: All taxable

**[-]** is initialized as non-tax.

### Taxable status of the **[-]** key

The tax calculation for the reduction amount is performed in accordance with the tax status programmed for the **[-]** key, regardless of whether the reduction is performed on the last item registered or a subtotal amount.

### To program preset reduction amount

# Basic Operations and Setups

## Registering reductions

The following examples show how you can use the  key in various types of registration.

## Reduction for items

### OPERATION

### RECEIPT

# Basic Operations and Setups

## To cancel all items in a transaction

OPERATION	RECEIPT
<p> <span>1</span> <span>00</span> <span>+ 1</span>  <span>2</span> <span>00</span> <span>- 2</span>  <span>3</span> <span>00</span> <span>× 3</span>  <span>4</span> <span>00</span> <span>÷ 4</span>  <span>MD/ST</span> </p> <p>Pressing <span>MD/ST</span> key is necessary to cancel the transaction.</p> <p><span>ERR CORR. CANCEL</span></p>	<pre> REG 06-15-2002 11:45                                 000028  DEPT01                        \$1.00 DEPT02      T1                 \$2.00 DEPT03      T1T2               \$3.00 DEPT04      T2                 \$4.00 CANCEL TTL  .....                     </pre>

### Important!

- Note that the number of items included in the transaction to be cancelled is limited (24 ~ 40 items), depending on the complexity of the transaction. If you try to cancel a transaction that exceeds the limit, an error occurs.  
In case of occurrence of this error, register these items in the RF mode.
- You can program the cash register that this cancel operation is not allowed.

## No sale registration

You can use the following procedure to open the drawer without registering a sale. This operation must be performed out of a sale.

OPERATION	RECEIPT
<p> <span>#/NS</span>  <span>(NS) : Canada</span> </p>	<pre> REG 06-15-2002 11:50                                 000029  #/NS .....                     </pre>

# Printing the daily sales reset report

This report shows daily sales totals.

# Convenient Operations and Setups

This section describes more sophisticated setups and operations that you can use to suit the needs of your retail environment.

## Clerk control function

Clerk name printing on receipt/journal, and sales amounts summing by clerk.

### Clerk sign on and sign off

Any time you begin any registration, clerk sign on operation is necessary.

#### Clerk sign on

	OPERATION	RECEIPT
Signing clerk 1 on:	<b>1</b> →	<div style="border: 1px solid black; padding: 5px;"> <p>REG 06-15-2002 12:34                      CLERK 01 000123 <small>Clerk name/consecutive No.</small>                      DEPT01 \$1.00                      DEPT02 T1 \$2.00                      @1.00                      DEPT03 T12 \$1.00</p> </div>
Signing clerk 2 on:	<b>2</b> →	
...	...	
Signing clerk 10 on:	<b>1 0</b> →	

#### Clerk sign off

	OPERATION
Signing clerk off:	<b>0</b> →

- The current clerk is also signed off whenever you set the mode switch to OFF position.

### Important!

- The error code “E08” appears on the display whenever you try to perform a registration, a read/reset operation without signing on.
- The signed on clerk is also identified on the receipt/journal.

### Changing OPEN key to CLK-# key

Refer to the “Programming compulsory and clerk control function” section on page 47.

# Post-finalization receipt format, General printing control, Compulsory, Machine features

## About post-finalization receipt

The post-finalization receipt lets you issue a receipt after finalization of the transaction. Note that all of the following conditions must be satisfied.

- The option “print receipts” is selected.
- The receipt issuance status must be OFF.
- The transaction must be finalized in the REG or RF mode using the **CA/AMT =/TEND**, **CH** or **CHK** key.

## Post-finalization receipt example

You can program the cash register to print the transaction total only (below Total format) or full details (below Detailed format) on the post-finalization receipt. Note that if the transaction contains more than 45 lines (including receipt header), the cash register prints in a Total format regardless of your programming.

### OPERATION

### RECEIPT

Item 1	Unit price	\$10.00
	Quantity	1
	Dept.	2
	Taxable	(1)
Item 2	Unit price	\$20.00
	Quantity	1
	Dept.	4
	Taxable	(2)
Payment	Cash	\$32.50

( ): Preset value

TAX 1		\$0.50
TAX-AMT 2		\$20.00
TAX 2		\$2.00
TOTAL		<b>\$32.50</b>
CASH		\$32.50
CHANGE		\$0.00

## Important!

- You can issue only one post-finalization receipt per transaction.

# Convenient Operations and Setups

## Programming general printing control

Suppress printing of the subtotal line during tender operation.		No = 0 Yes = 1	<input type="checkbox"/> D <sub>8</sub>
Print the current time.	a	Yes = 0 No = 1	a+b+c = <input type="checkbox"/> D <sub>7</sub>
Skip the date on journal.	b	Yes = 0 No = 2	
Skip the consecutive number.	c	No = 0 Yes = 4	
Print receipt/Print journal.	a	Receipt = 0 Journal = 1	a+b+c = <input type="checkbox"/> D <sub>6</sub>
Issue post receipt by Finalize key (automatic issue)/ Post receipt key (manual issue)	b	Manual = 0 Automatic = 2	
Detail format/Total format in the post receipt	c	Detail = 0 Total = 4	
Print taxable amount.	a	Yes = 0 No = 1	a+b+c = <input type="checkbox"/> D <sub>5</sub>
Print tax symbols.	b	Yes = 0 No = 2	
Print number of item sold.	c	No = 0 Yes = 4	
Skip item lines on journal. (journal skip)	a	No = 0 Yes = 1	a+b+c = <input type="checkbox"/> D <sub>4</sub>
Print subtotal when the key is pressed.	b	No = 0 Yes = 2	
Time system: 1 24 hour system, 2 12 hour system	c	1 = 0 2 = 4	
Digit separator symbol.	a	Comma = 0 Period = 1	a+b+c = <input type="checkbox"/> D <sub>3</sub>
Decimal symbol.	b	Period = 0 Comma = 2	
Journal compressed print (print by half height characters)	c	Yes = 0 No = 4	
Print hyphens before finalizing a transaction.	a	No = 0 Yes = 1	a+b = <input type="checkbox"/> D <sub>2</sub>
Print tax total on receipt and report.	b	No = 0 Yes = 2	
Print receipt by double height characters.		No = 0 Yes = 2	<input type="checkbox"/> D <sub>1</sub>

## Programming compulsory and clerk control function

Force <input type="checkbox"/> <small>SUB</small> <input type="checkbox"/> <small>TOTAL</small> operation before finalization.	a	No = 0 Yes = 2	a+b = <input type="text"/> D <sub>8</sub>
Force a money declaration before allowing a daily read/reset and financial read operation.	b	No = 0 Yes = 4	
Always “000”			<input type="text"/> 0 ~ <input type="text"/> 0 D <sub>7</sub> ~D <sub>5</sub>
Clear the key buffer when a receipt is issued.	a	No = 0 Yes = 1	a+b = <input type="text"/> D <sub>4</sub>
Perform auto sign-off when a receipt/report is issued.	b	No = 0 Yes = 2	
Display “seconds” during time display.		No = 0 Yes = 2	<input type="text"/> D <sub>3</sub>
Reset the consecutive number when the daily reset report is issued.	a	Yes = 0 No = 1	a+b = <input type="text"/> D <sub>2</sub>
Prohibit cancel operation.	b	No = 0 Yes = 2	
Assign <input type="text"/> 00 as “00” or “000”.	a	“00” = 0 “000” = 1	a+b = <input type="text"/> D <sub>1</sub>
Assign <input type="text"/> OPEN / <input type="text"/> CLK# as “OPEN” or “CLK-#”.	b	“OPEN” = 0 “CLK-#” = 4	

# Convenient Operations and Setups

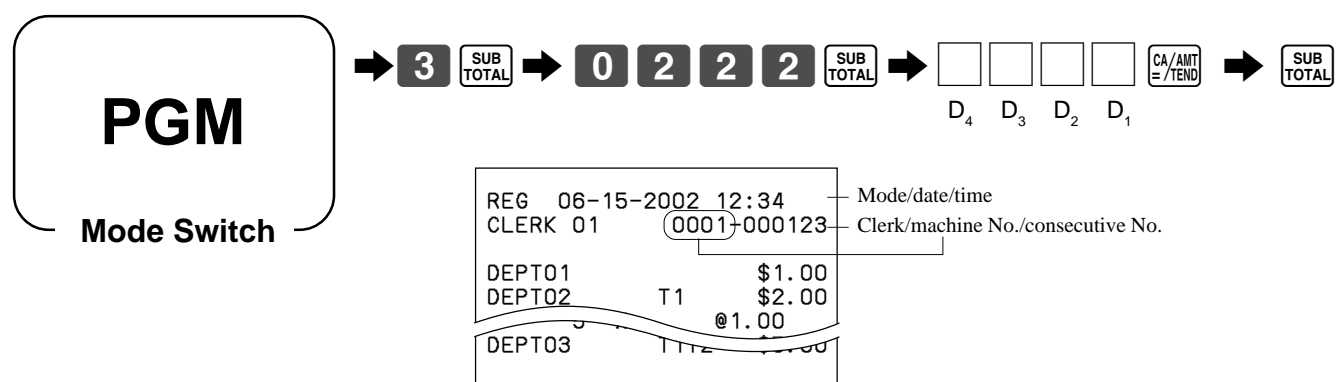

## Programming read/reset report printing control

Alert when the electronic journal memory becomes full.	a	No = 0 Yes = 1	a+b = <input type="text"/> D <sub>6</sub>
Print the first and the last consecutive number of the day (consecutive No. range) on the daily sales reset report.	b	No = 0 Yes = 4	
Skip zero total lines on department and transaction read/reset report.	a	Yes = 0 No = 1	a+b+c = <input type="text"/> D <sub>5</sub>
Skip zero total lines on PLU read/reset report.	b	Yes = 0 No = 2	
Skip zero total lines on hourly sales report.	c	Yes = 0 No = 4	
Print the sales ratio on read/reset report.	a	No = 0 Yes = 1	a+b = <input type="text"/> D <sub>4</sub>
Suppress printing of the non-resettable grand total on the daily reset report.	b	No = 0 Yes = 2	
Suppress printing of RF total and count (both RF mode and RF key) on the read/reset report.	a	No = 0 Yes = 1	a+b = <input type="text"/> D <sub>3</sub>
Print tax rate with tax totalizer.	b	No = 0 Yes = 2	
Always "00"			<input type="text"/> 0 <input type="text"/> 0 D <sub>2</sub> D <sub>1</sub>

## Setting a store/machine number

You can set a 4-digit machine number to identify your machine. The machine number is printed on receipts/journal for each transaction.

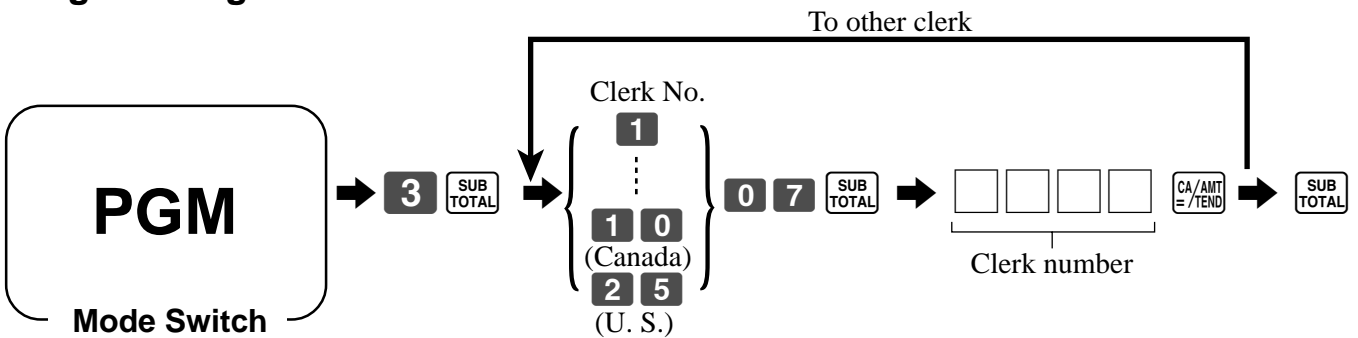

# Programming to clerk

You can program up to 4-digit assigning number (clerk number) and trainee status of clerk (i.e. training cashier) for each clerk.

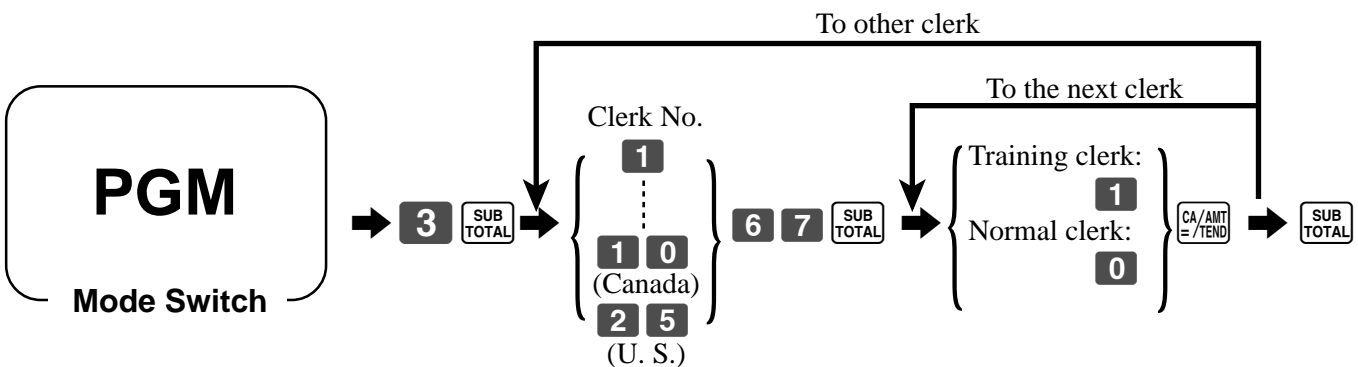

## Important!

This program is required only when the  key is assigned as "CLK#" by the key program on page 47.

### Programming clerk number

### Programming trainee status of clerk

When a training clerk signs on, the cash register automatically enters the training mode. In the training mode, no operations are affected on any totalizers nor counters. The training mode symbols are printed in the columns of receipt entries produced in the training mode. The cash register exits the training mode when the training clerk signs off.

## Grand total, special character

Memory No.	Program code	Contents	Initial character	Yours

# Entering characters

In this section, the method to enter descriptors or messages (characters) to the cash register during programming is described.

Characters are specified by character keyboard or by codes. In the first half of this section, the usage of character keyboard is described. In the latter half, inputting method by character code is described.

## Using character keyboard

### 1 Feed key

Hold this key down to feed paper from the printer.

### 2 Alphabet keys

Used input to characters.

### 3 PLU/S.DEPT key

Use this key to input PLU/Subdepartment numbers.

### 4 Double size letter key

Specifies that the next character you input to a double size character. You must press this key before each double size character.

### 5 Space key

Set a space by depression.

### 6 Clear key

Clears all input characters in the programming.

### 7 Numeric keys

Used to enter program codes, memory number and character codes.

### 8 Character fixed key

Enter when the alphabetic entry for a descriptor, name or message has been completed.

### 9 Backspace/Character code fixed key

Registers one character with code (2 or 3 digits). Clears the last input character, much like a back space key.

### O CAPS key

Pressing this key shifts the character from the lowercase letter to upper case letter.

### A Shift key

Pressing this key shifts the character from the uppercase letter to lower case letter.

### B Program end key

Terminates the character programming.

### C Character enter key

Registers the programmed characters.

### Example:

Input “ **A** p p l e J u i c e ”,  
enter “DBL SIZE”, “A”, “SHIFT”, “p”, “p”, “l”, “e”, “SPACE”, “CAPS”, “J”, “SHIFT”, “u”, “i”, “c”, “e” .

# Convenient Operations and Setups

## Entering characters by code

Every time you enter a character, choose character codes by the character code list (below) and press the  key to settle it.

### Example:

Input “  A  p  p  l  e  J  u  i  c  e ”,  
 enter “ 255  65  112  112  108  101  32  74  117  105  99  101  ”.

 : for R/J printer only.

The “Ä”, “Ö”, “Ü” characters are displayed as “A”, “O”, “U”.

# Department key feature programming

There are two different methods you can use to assign features to department keys. With “Batch feature programming”, you can use a single operation to assign multiple features. “Individual feature programming”, on the other hand, lets you assign features one-by-one. This method is recommended for programming of special features to individual department keys.

## Batch feature programming

When using this procedure to assign multiple features to departments, use 9-digit codes that you create using the following procedure

Negative department	a	No = 0 Yes = 2	a+b = <input type="text"/> D <sub>9</sub>
Hash department	b	No = 0 Yes = 4	
Single item sale		No = 0 Yes = 1	<input type="text"/> D <sub>8</sub>
High digit limit specification		Significant number	<input type="text"/> D <sub>7</sub>
Taxable status 1 (for the U.S. model)	a	No = 0 Yes = 1	a+b+c = <input type="text"/> D <sub>6</sub>
Taxable status 2 (for the U.S. model)	b	No = 0 Yes = 2	
Taxable status 3 (for the U.S. model)	c	No = 0 Yes = 4	
Taxable status (for the Canadian model) Non tax = 0, Taxable 1 = 1, Taxable 2 = 2, Taxable 3 = 3, Taxable 4 = 4, Taxable 1 & 2 = 5, Taxable 1 & 3 = 6, Taxable 1 & 4 = 7		Significant number	<input type="text"/> D <sub>6</sub>
Always “000”			<input type="text"/> 0 ~ <input type="text"/> 0 D <sub>5</sub> ~ D <sub>3</sub>
Group link (00 ~ 50)		Significant numbers	<input type="text"/> <input type="text"/> D <sub>2</sub> D <sub>1</sub>

# PLU feature programming

There are two different methods you can use to assign features to PLUs. With “Batch feature programming”, you can use a single operation to assign multiple features. “Individual feature programming”, on the other hand, let you assign features one-by-one. This method is recommended for programming of special features to individual PLUs.

## Batch feature programming

When using this procedure to assign multiple features to PLUs, use 9-digit codes that you create using the following procedure.

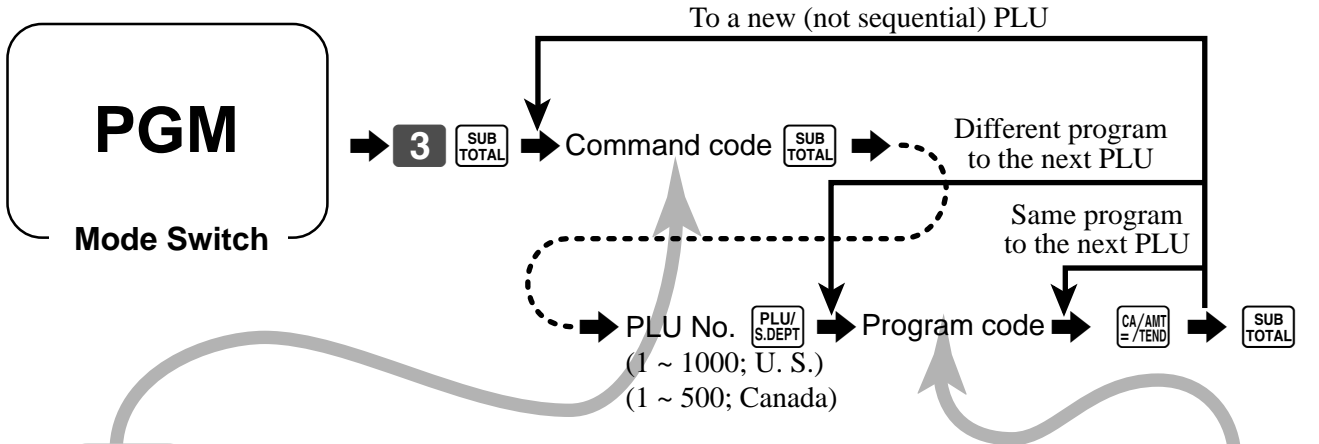

Negative PLU	a	No = 0 Yes = 2	a+b = <input type="text"/> D <sub>9</sub>
Hash PLU	b	No = 0 Yes = 4	
Single item sale	a	No = 0 Yes = 1	a+b = <input type="text"/> D <sub>8</sub>
Treat as subdepartment/PLU.	b	PLU = 0 Subdept. = 4	
High digit limit specification (for subdepartment)		Significant number	<input type="text"/> D <sub>7</sub>
Taxable status 1 (for the U.S. model)	a	No = 0 Yes = 1	a+b+c = <input type="text"/> D <sub>6</sub>
Taxable status 2 (for the U.S. model)	b	No = 0 Yes = 2	
Taxable status 3 (for the U.S. model)	c	No = 0 Yes = 4	
Taxable status (for the Canadian model) Non tax = 0, Taxable 1 = 1, Taxable 2 = 2, Taxable 3 = 3, Taxable 4 = 4, Taxable 1 & 2 = 5, Taxable 1 & 3 = 6, Taxable 1 & 4 = 7		Significant number	<input type="text"/> D <sub>6</sub>
Always “0”			<input type="text"/> 0 D <sub>5</sub>
Department link (00 ~ 96; U.S., 00 ~ 24; Canada)		Significant numbers	<input type="text"/> <input type="text"/> D <sub>4</sub> D <sub>3</sub>
Always “00”			<input type="text"/> 0 <input type="text"/> 0 D <sub>2</sub> D <sub>1</sub>

# Convenient Operations and Setups

## Individual feature programming

With this procedure, you can assign individual features to specific PLUs. Please select the command code of the contents you want to program, and follow the procedure below.

Command code	Contents/selection			Program code
0166	Negative PLU	a	No = 0 Yes = 2	a+b = <input type="text"/>
	Hash PLU	b	No = 0 Yes = 4	
1866	Single item sale	a	No = 0 Yes = 1	a+b = <input type="text"/>
	Treat as subdepartment (If "No", treat as PLU.)	b	No = 0 Yes = 4	
1566	High digit limit specification		Significant number	<input type="text"/>
0366	Taxable status 1 (for the U.S. model)	a	No = 0 Yes = 1	a+b+c = <input type="text"/>
	Taxable status 2 (for the U.S. model)	b	No = 0 Yes = 2	
	Taxable status 3 (for the U.S. model)	c	No = 0 Yes = 4	
	Taxable status (for the Canadian model) Non tax = 0, Taxable 1 = 1, Taxable 2 = 2, Taxable 3 = 3, Taxable 4 = 4, Taxable 1 & 2 = 5, Taxable 1 & 3 = 6, Taxable 1 & 4 = 7			Significant number
1166	Department link (00 ~ 96; U.S., 00 ~ 24; Canada)		Significant numbers	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>

To program a unit price to a PLU or a subdepartment, please refer to the page 29.

## Registering example

## Locking out and releasing high digit limitation

The  key should be assigned as "OPEN".

## Single item sales items

You can issue a receipt by simply touching the single item sales department or PLU. The following examples show how you register single-item-sale departments. Registration of single item sale PLUs is identical.

### Single item

	OPERATION	RECEIPT												
<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td rowspan="4" style="text-align: center;">Item</td> <td>Unit price</td> <td style="text-align: right;">\$2.00</td> </tr> <tr> <td>Quantity</td> <td style="text-align: center;">1</td> </tr> <tr> <td>Dept.</td> <td style="text-align: center;">4</td> </tr> <tr> <td>Taxable</td> <td style="text-align: center;">(2)</td> </tr> <tr> <td></td> <td>Sales status</td> <td style="text-align: center;">(Single item)</td> </tr> </table> <p>( ): Preset value</p>	Item	Unit price	\$2.00	Quantity	1	Dept.	4	Taxable	(2)		Sales status	(Single item)	<div style="margin-bottom: 10px;"> <span style="font-size: 24px; font-weight: bold;">2 00</span> <span style="font-size: 24px; border: 1px solid black; padding: 2px;">÷ 4</span> </div>	<div style="border: 1px solid black; padding: 5px;"> <p>REG 06-15-2002 12:45 CLERK 01 000031</p> <p>DEPT04 T2 \$2.00 TAX-AMT 2 \$2.00 TAX 2 \$0.20 CASH \$2.20</p> </div>

## Percent key feature programming

In this section, detail information of [%] is described.

### Programming to the percent key

To program a percent rate, please refer to the page 31.

Fraction control, round off = 0, cut off = 1, round up = 2		Significant number	<input type="text"/> D <sub>7</sub>
Key attribution	a	%- = 0 %+ = 1 M-Tax = 4	a+b = <input type="text"/> D <sub>6</sub>
Prohibit manual entry to override programmed percentage.	b	No = 0 Yes = 2	
Always "0"			<input type="text"/> 0 D <sub>5</sub>
Taxable status 1 (for the U.S. model)	a	No = 0 Yes = 1	a+b+c = <input type="text"/> D <sub>4</sub>
Taxable status 2 (for the U.S. model)	b	No = 0 Yes = 2	
Taxable status 3 (for the U.S. model)	c	No = 0 Yes = 4	
Taxable status (for the Canadian model) Non tax = 0, Taxable 1 = 1, Taxable 2 = 2, Taxable 3 = 3, Taxable 4 = 4, Taxable 1 & 2 = 5, Taxable 1 & 3 = 6, Taxable 1 & 4 = 7, All taxable = 9		Significant number	<input type="text"/> D <sub>4</sub>
Always "000"			<input type="text"/> 0 ~ <input type="text"/> 0 D <sub>3</sub> ~D <sub>1</sub>

## Registering discounts and premiums

### Discount for Items and subtotals

Refer to “Registering discounts” in “Basic Operations and Setups” on page 32.

### Premium for Items and subtotals

First of all, change key attribution to “premium” and change the key descriptor also.

#### OPERATION

#### RECEIPT

Item 1	Unit price	(\$10.00)
	Quantity	1
	Dept.	4
	Taxable	(2)
Premium	Rate	7%
Item 2	Unit price	(\$5.00)
	Quantity	1
	PLU	32
	Taxable	(2)
Subtotal	Rate	(5%)
Premium	Taxable	(1/2)
Payment	Cash	\$20.00

( ): Preset value

Applies the input value as a premium rate (7%).

For this operation, press this key instead of .

Applies the preset premium rate (5%) to the subtotal.

REG 06-15-2002 13:15		
CLERK 01 000037		
DEPT04	T2	\$10.00
7%		
%+	T2	\$0.70
PLU0032	T2	\$5.00
ST		\$15.70
5%		
%+	T1T2	\$0.79
TAX-AMT 2		\$16.49
TAX 2		\$1.65
TOTAL		\$ 18.14
CASH		\$20.00
CHANGE		\$1.86

- You can manually input rates up to 4 digits long (0.01% to 99.99%).

### Taxable status of the key

- Whenever you perform a discount/premium operation on the last item registered, the tax calculation for discount/premium amount is performed in accordance with the tax status programmed for that item.
- Whenever you perform a discount/premium operation on a subtotal amount, the tax calculation for the subtotal amount is performed in accordance with the tax status programmed for the key.

# Convenient Operations and Setups

## Registering manual tax

You can program the cash register to change the function of the [%] key to that of a [M-TAX] (manual tax) key. The [M-TAX] key is used to register manually entered tax amounts.

### Important!

If you program the cash register to perform registrations with manually entered tax amounts, the [M-TAX] key replaces the [%] key, so discount/premium registration will be impossible.

Also, please set the appropriate key descriptor to the key.

### Example

			OPERATION	RECEIPT
Item 1	Unit price	\$10.00	[1] [0] [00] [-] [2] [5] [0] [M-TAX] [%] key is assigned to [M-TAX] key.	REG 06-15-2002 13:20 CLERK 01 000038  DEPT02 \$10.00 M-TAX \$0.50 DEPT04 T2 \$20.00 TAX-AMT 2 \$20.00 TAX 2 \$2.00 TOTAL <b>\$32.50</b> CASH \$33.00 CHANGE \$0.50

	Taxable	(2)		
Payment	Cash	\$33.00		

( ): Preset value

# Currency exchange programming

When the **POST RECEIPT / EXCHG** key is pressed, a current subtotal including tax is converted directly into foreign currency and the result is displayed, and the subsequent finalization is handled using the foreign currency. The currency exchange function is released by finalizing a transaction, partial tender operation, receipt issuance, or by pressing the **SUB TOTAL** key.

## Currency exchange rate programming

Example:

\$1.00 = ¥110.50 ⇨ **1 · 1 0 5**  
 ¥100 = \$0.9050 ⇨ **0 · 9 0 5**

## Currency exchange feature programming

Fraction control, round off = 0, cut off = 1, round up = 2	Significant number	<input type="text"/> D <sub>7</sub>
Always "00"		<input type="text"/> <input type="text"/> D <sub>6</sub> D <sub>5</sub>
Monetary symbol for foreign currency; Local currency symbol = 0 Foreign currency symbol (in the special character program) = 1	Significant number	<input type="text"/> D <sub>4</sub>
Always "0"		<input type="text"/> D <sub>3</sub>
Digit separator for foreign currency; Period = 0, Comma = 2	Significant number	<input type="text"/> D <sub>2</sub>
Monetary system code (decimal places) following currency exchange operation; Same as local currency = 0, <input type="text"/> <input type="text"/> = 1, <input type="text"/> <input type="text"/> <input type="text"/> = 2, <input type="text"/> = 3	Significant number	<input type="text"/> D <sub>1</sub>

# Convenient Operations and Setups

## Registering foreign currency

### 1) Full amount tender in foreign currency

\* Preprogrammed exchange rate: ¥ 1 = \$0.0090

#### Important!

Tenders in a foreign currency can be registered using the **CA/AMT =/TEND** and **CHK** keys only. Other finalize keys cannot be used.

OPERATION	DISPLAY	RECEIPT																											
<b>1 0 00</b> <b>+ 1</b> ← Enter the unit price and press the applicable department key.	 (Displays in \$)	<table border="1"> <tr> <td>REG</td> <td>06-15-2002</td> <td>13:20</td> </tr> <tr> <td>CLERK</td> <td>01</td> <td>000038</td> </tr> <tr> <td>DEPT01</td> <td></td> <td>\$10.00</td> </tr> <tr> <td>DEPT01</td> <td></td> <td>\$20.00</td> </tr> <tr> <td>TOTAL</td> <td></td> <td>\$30.00</td> </tr> <tr> <td>CURR EXG</td> <td></td> <td></td> </tr> <tr> <td>CASH</td> <td></td> <td>¥5,000</td> </tr> <tr> <td>CASH</td> <td></td> <td>\$45.00</td> </tr> <tr> <td>CHANGE</td> <td></td> <td>\$15.00</td> </tr> </table>	REG	06-15-2002	13:20	CLERK	01	000038	DEPT01		\$10.00	DEPT01		\$20.00	TOTAL		\$30.00	CURR EXG			CASH		¥5,000	CASH		\$45.00	CHANGE		\$15.00

TOTAL		\$30.00																											
CURR EXG																													
CASH		¥5,000																											
CASH		\$45.00																											
CHANGE		\$15.00																											
<b>2 0 00</b> <b>+ 1</b> ← Enter the next unit price and press the applicable department key.	 (Displays in \$)																												
 ← Press the  key without entering a numeric value. This operation converts the subtotal (including tax) dollar value into yen by applying a preprogrammed exchange rate. The result is shown on the display but not printed on the receipt or journal.	 (Displays in ¥: 3,333)																												
<b>5 0 00</b>  ← Enter the amount tendered in yen and press the  key. This operation converts the entered yen amount into dollars by applying a preprogrammed exchange rate. The result is shown on the display.	 (Displays in \$: 45.00)																												
 ← Press to finalize the transaction. Note that you do not need to reenter the dollar amount. The register automatically calculates the change amount due in dollars and shows it on the display, receipts and journal.	 (Displays in \$)																												

## 2) Partial tender in a foreign currency

\* Preprogrammed exchange rate: ¥ 1 = \$0.0090

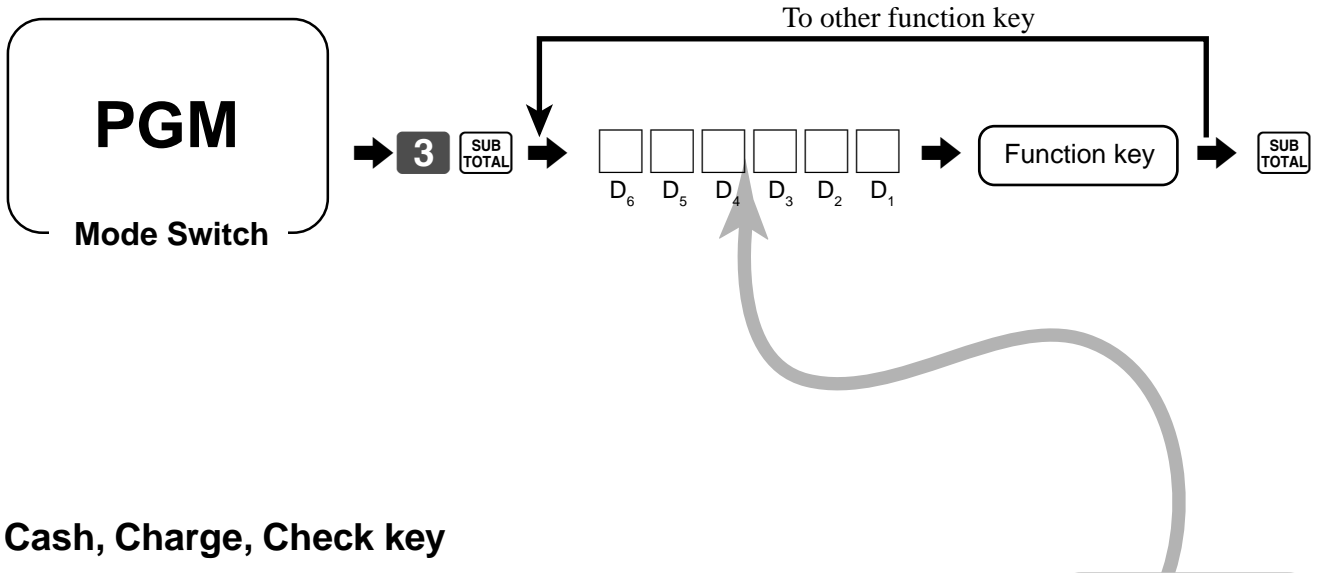

### Important!

Partial tender in a foreign currency can be registered using the **CA/AMT = /TEND** key and **CHK** keys only. Other finalization keys cannot be used, but the remaining tender can be finalized using any finalize key.

OPERATION	DISPLAY	RECEIPT
<b>1 0 00</b> <b>+ 1</b> ← Enter the unit price and press the applicable department key.	<div style="border: 1px solid black; padding: 2px; display: inline-block;">10.00</div> (Displays in \$)	<div style="border: 1px solid black; padding: 5px;">             REG 06-15-2002 13:25              CLERK 01 000039               DEPT01 \$10.00              DEPT01 \$20.00              TOTAL \$30.00              CURR EXG              CASH ¥2,000              CASH \$18.00              CHECK \$12.00           </div>
<b>2 0 00</b> <b>+ 1</b> ← Enter the next unit price and press the applicable department key.	<div style="border: 1px solid black; padding: 2px; display: inline-block;">20.00</div> (Displays in \$)	
<b>POST RECEIPT /EXCHG</b> ← Press the <b>POST RECEIPT /EXCHG</b> key without entering a numeric value. This operation converts the subtotal (including tax) dollar value into yen by applying a preprogrammed exchange rate. The result is shown on the display but not printed on the receipt or journal.	<div style="border: 1px solid black; padding: 2px; display: inline-block;">3333</div> (Displays in ¥: 3,333)	
<b>2 0 00</b> <b>POST RECEIPT /EXCHG</b> ← Enter the partial amount tendered in yen and press the <b>POST RECEIPT /EXCHG</b> key. This operation converts the entered yen amount into dollars by applying a preprogrammed exchange rate. The result is shown on the display.	<div style="border: 1px solid black; padding: 2px; display: inline-block;">18.00</div> (Displays in \$: 18.00)	
<b>CA/AMT = /TEND</b> ← Press the <b>CA/AMT = /TEND</b> key to specify cash tender for the yen partial tender. Note that you do not need to reenter the dollar amount. The register automatically deducts the dollar equivalent of the yen amount tendered from the total amount due and shows the amount on the display.	<div style="border: 1px solid black; padding: 2px; display: inline-block;">12.00</div> (Displays in \$)	
<b>CHK</b> ← Press to finalize the transaction.	<div style="border: 1px solid black; padding: 2px; display: inline-block;">12.00</div> (Displays in \$)	

## Other function key feature programming

You can define a selection of features for the function keys by specifying an 8-digit program code for each key.

### Cash, Charge, Check key

High amount limit specification for subtotal and tendering amounts *1	Maximum value (0 ~ 9)	<input type="text"/> <input type="text"/> D <sub>6</sub> D <sub>5</sub>
	Number of zeros (0 ~ 9)	
Prohibit entry of a partial payment	a No = 0 Yes = 1	a+b+c = <input type="text"/> D <sub>4</sub>
Prohibit the entry of the amount tendered.	b No = 0 Yes = 2	
Force entry of the amount tendered.	c No = 0 Yes = 4	
Always "0"		<input type="text"/> 0 D <sub>3</sub>
High amount limit specification for change amount due. *1	Maximum value (0 ~ 9)	<input type="text"/> <input type="text"/> D <sub>2</sub> D <sub>1</sub>
	Number of zeros (0 ~ 9)	

\*1 High amounts limits:

High amount limitations are specified as 2-digits. The first digit you specify limits the maximum value of the leftmost digit of the value within the range of 0 through 9. The second digit you specify indicates the number of zeros in the limit value, again within the range of 0 through 9.

Example: \$600.00 maximum ⇨ Enter 64.

Entering "00" clears the limitation.

## Received on account, Payout key

High amount limit specification for change amount due. (refer to *1 on the previous page.)	Maximum value (0 ~ 9)	<input type="text"/> <input type="text"/> D <sub>6</sub> D <sub>5</sub>
	Number of zeros (0 ~ 9)	
Always "0000"		<input type="text"/> 0 ~ <input type="text"/> 0 D <sub>4</sub> ~ D <sub>1</sub>

## Minus key

Allow credit balance.	No = 0 Yes = 1	<input type="text"/> D <sub>6</sub>
High digit limit specification	Significant number	<input type="text"/> D <sub>5</sub>
Taxable status 1 (for the U.S. model)	a No = 0 Yes = 1	a+b+c = <input type="text"/> D <sub>4</sub>
Taxable status 2 (for the U.S. model)	b No = 0 Yes = 2	
Taxable status 3 (for the U.S. model)	c No = 0 Yes = 4	
Taxable status (for the Canadian model) Non tax = 0, Taxable 1 = 1, Taxable 2 = 2, Taxable 3 = 3, Taxable 4 = 4, Taxable 1 & 2 = 5, Taxable 1 & 3 = 6, Taxable 1 & 4 = 7, All taxable = 9	Significant number	<input type="text"/> D <sub>4</sub>
Always "000"		<input type="text"/> 0 ~ <input type="text"/> 0 D <sub>3</sub> ~ D <sub>1</sub>

## #/No sale key, No sale key

Treat as the first transaction.	No = 0 Yes = 1	<input type="text"/> D <sub>6</sub>
Always "00000"		<input type="text"/> 0 ~ <input type="text"/> 0 D <sub>5</sub> ~ D <sub>1</sub>

# Convenient Operations and Setups

## Calculator functions

While registering at the REG mode, you can switch to CAL mode and then return to REG mode to resume the registration.

# CAL

Mode Switch

## Programming calculator mode control

Open drawer when $\boxed{\text{CA/AMT}} \boxed{= / \text{TEND}}$ (equal) is pressed in CAL mode.	a	No = 0 Yes = 1	$a+b+c = \boxed{\phantom{0000}} D_5$
Open drawer when $\boxed{\# / \text{NS}}$ (or $\boxed{\text{NS}}$ ) is pressed in CAL mode.	b	No = 0 Yes = 2	
Print calculator total on the daily report.	c	Yes = 0 No = 4	
Always "0000"			$\boxed{0} \sim \boxed{0} D_4 \sim D_1$

## About the daylight saving time

It is possible to set the internal clock forward/backward by 1 ~ 9 hour(s) for the daylight saving time.

### OPERATION

### DISPLAY

#### • Forward by 1 hour

#### • Backward by 1 hour

\* Put 2 ~ 9, in case of set the clock by 2 ~ 9 hours.

## Printing read/reset reports

### • Read report

You can print read reports at any time during the business day without affecting the data stored in the cash register's memory.

### • Reset report

You should print reset reports at the end of the business day.

### Important!

- The reset operation issues a report and also clears all sales data from the cash register's memory.
- Be sure to perform the reset operations at the end of each business day. Otherwise, you will not be able to distinguish between the sales data for different dates.

### To print the individual department, PLU/subdepartment read report

This report shows sales for specific departments or PLU/subdepartments.

\*1 Money declaration:

Count how much cash is in the drawer and input this amount (up to 8-digits).

The cash register will automatically compare the input with the cash in drawer in the memory and print the difference between these two amounts.

Note that if money declaration is required by programming (page 47), you cannot skip this procedure.

## To print the group read report

This report shows group totals.

- Electronic journal memory near-end and memory end:

Electronic journal memory near end/memory end symbol

### Important!

- When the register shows the above sign, issue this read report (if necessary) and reset this memory immediately. (If you do not need this report, enter "4058" instead of "58".)
- If you select "No" in "Alert when the electronic journal memory becomes full (refer to page 48)", issue this report before the daily sales reset report, otherwise you cannot get this report.

# Convenient Operations and Setups

## To print the daily sales read/reset report

This report shows sales except for PLUs.

\*1 Money declaration:

Count how much cash is in the drawer and input this amount (up to 8-digits).

The cash register will automatically compare the input with the cash in drawer in the memory and print the difference between these two amounts.

Note that if money declaration is required by programming (page 47), you cannot skip this procedure.

\*2 Zero totalled departments (the amount and item numbers are both zero) are not printed.

\*3 Taxable amount and tax amount are printed only if the corresponding tax table is programmed.

\*4 These items can be skipped by programming.

\*5 The "\*" symbol is printed on the reset report, if memory overflow occurred in the totalizer.

## To print the periodic-1/-2 sales read/reset reports

These reports show sales breakdowns of sales by any two kinds of period you want.

## To print key descriptor, name, message program (except PLU)

# Convenient Operations and Setups

To print the print control, compulsory clerk program (except PLU)

\*1 Departments without being programmed are not printed on this report.

# Troubleshooting

This section describes what to do when you have problems with operation.

## When an error occurs

Errors are indicated by an error tone. When this happens, you can usually find out what the problem is as shown below.

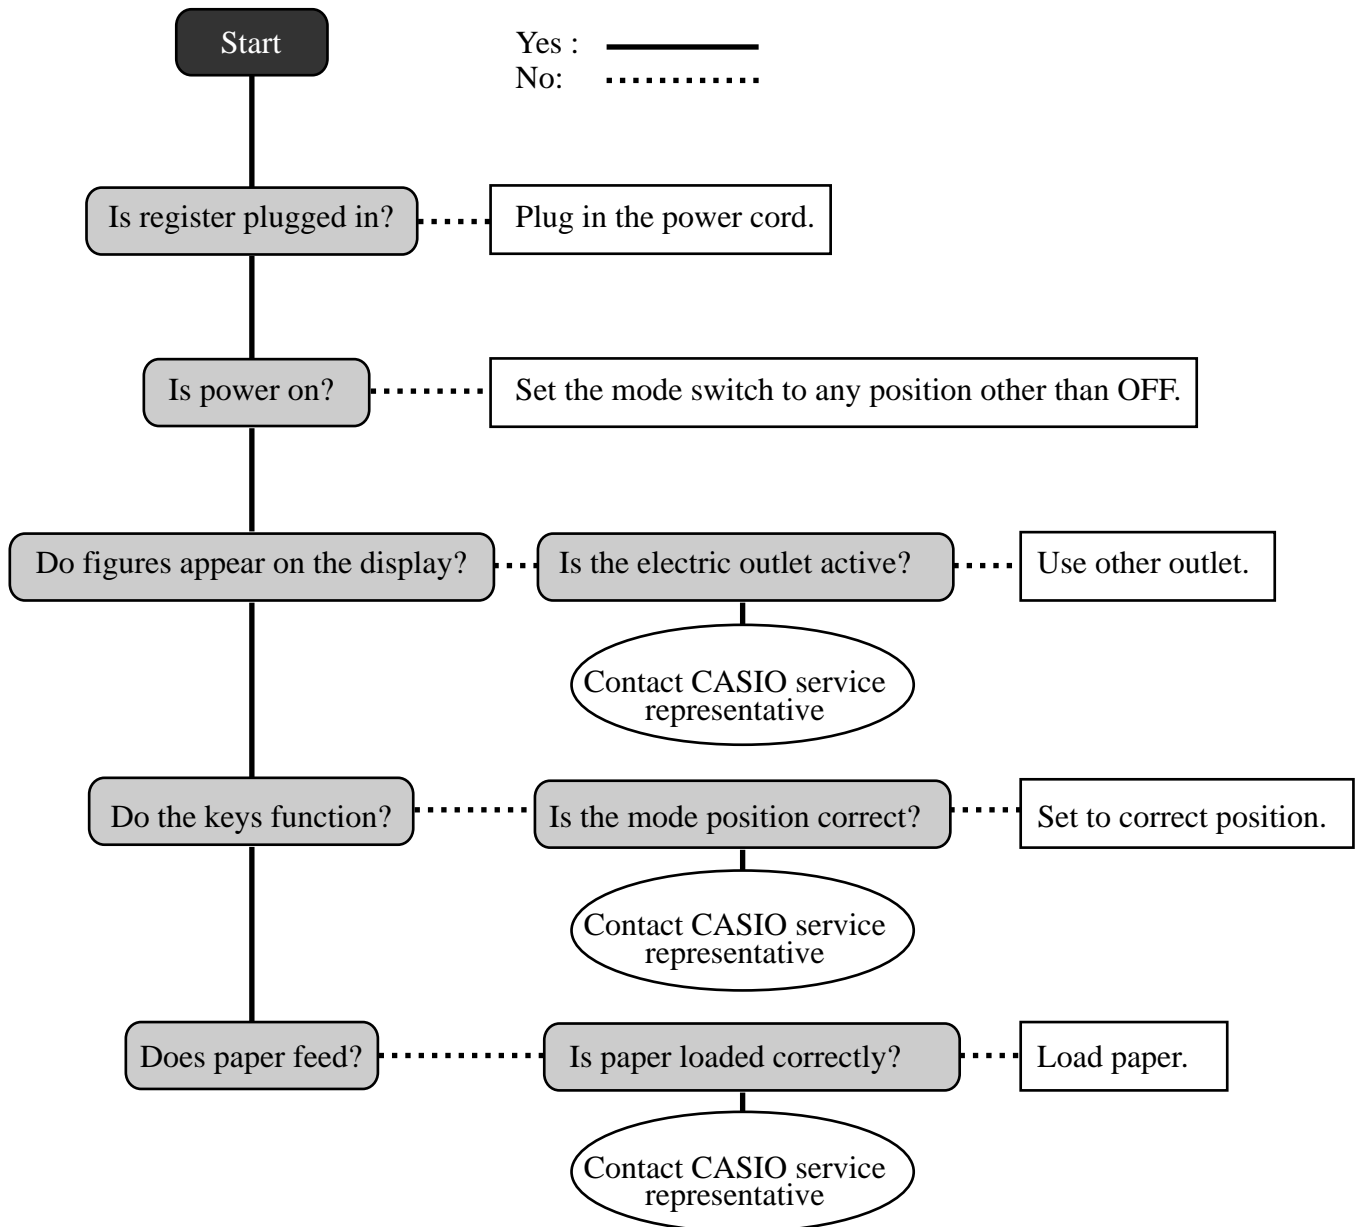

Does the display show an error code?

No	Yes			
↓	↓	Error code (Message)	Meaning	Action
↓		<b>E01</b> (ERR-MODE)	Mode switch position changed before finalization.	Return the mode switch to its original setting and finalize the operation.
↓		<b>E08</b> (SIGN-ON)	Registration without entering a clerk number.	Enter a clerk number.
↓		<b>E10</b> (PRNT-LID)	Platen arm of the printer is opened.	Close the platen arm.
↓		<b>E12</b> (JPAP-END)	Journal paper end	Replace the new paper roll.
↓		<b>E14</b> (RPAP-END)	Receipt paper end	Replace the new paper roll.
↓		<b>E27</b> (BUF-FULL)	Transaction cancel buffer full.	Finalize the transaction.
↓		<b>E31</b> (PRESS-ST)	Finalization of a transaction attempted without confirming the subtotal.	Press the  key.
↓		<b>E33</b> (TEND-AMT)	Finalize operation attempted without entering amount tender.	Enter the amount tendered.
↓		<b>E35</b> (CNG-OVER)	Change amount exceeds preset limit.	Input amount tendered again.
↓		<b>E38</b> (DECL-AMT)	Read/reset operation without declaring cash in drawer. This error appears only when this function is activated.	Perform money declaration.
↓				

Press  key and check the appropriate section of this manual for the operation you want to perform.

## When the register does not operate at all

Perform the following check whenever the cash register enters an error condition as soon as you switch it on. The results of this check are required by service personnel, so be sure to perform this check before you contact a CASIO representative for servicing.

## In case of power failure

If the power supply to the cash register is cut by a power failure or any other reason, simply wait for power to be restored. The details of any ongoing transaction as well as all sales data in memory are protected by the memory backup batteries.

- Power failure during a registration  
The subtotal for items registered up to the power failure is retained in memory. You will be able to continue with the registration when power is restored.
- Power failure during printing a read/reset report  
The data already printed before the power failure is retained in memory. You will be able to issue a report when power is restored.
- Power failure during printing of a receipt and the journal  
Printing will resume after power is restored. A line that was being printed when the power failure occurred is printed in full.
- Other  
The power failure symbol is printed and any item that was being printed when the power failure occurred is reprinted in full.

### Important!

Once receipt/journal printing or printing of a report starts, it can be stopped only by interruption of power to the cash register.

## When the L sign appears on the display

### About the low battery indicator...

The following shows the low battery indicator.

If this indicator appears when you switch the cash register on, it can mean one of three things:

- No memory backup batteries are loaded in the cash register.
- The power of the batteries loaded in the unit is below a certain level.
- The batteries loaded in the unit are dead.

To clear this sign, press  key.

### Important!

Whenever the low battery indicator appears on the display, load a set of three new batteries as soon as possible. If there is a power failure or you unplug the cash register when this indicator appears, you will lose all of your sales data and settings.

**BE SURE TO KEEP THE POWER CORD OF THE CASH REGISTER  
PLUGGED IN WHENEVER YOU REPLACE THE BATTERIES.**

## To replace journal paper

### Step 1

Set the mode switch to the REG position and remove the printer cover.

### Step 2

Press **FEED** to feed about 20 cm of paper.

### Step 6

Slide the printed journal from the take-up reel.

### Step 3

Cut the journal paper at the point where nothing is printed.

### Step 7

Open the platen arm.

### Step 4

Remove the journal take-up reel from its holder.

### Step 8

Remove the old paper roll from the cash register.

### Step 5

Remove the paper guide from the take-up reel.

### Step 9

Load new paper.

Go to the step 3 described on page 10 of this manual.

## To replace receipt paper

### Step 1

Set the mode switch to the REG position and remove the printer cover.

### Step 2

Open the platen arm.

### Step 3

Remove the old paper roll from the cash register.

### Step 4

Load new paper.

Go to the step 3 described on page 9 of this manual.

#### NOTE:

After completion of register programming, enter **6 2 0 0** and **SUB TOTAL** in the PGM 3 mode (PGM mode ⇒ **3** **SUB TOTAL**) to backup the program data into the internal non-volatile memory. (This operation takes about 10 seconds.)

## Options

### WT-82 wetproof cover

The optional wetproof cover protects the keyboard from moisture damage.

Consult your CASIO dealer for details.

# Specifications

## Input method

Entry: 10-key system; Buffer memory 8 keys (2-key roll over)  
 Department: Full key system

## Display

Amount 8 digits (Zero suppression) ; No. of repeats, Receipt On/Off  
 Character 8 digits; Item descriptor, Key descriptor, Mode

## Printer

Printer: Single sheet dot matrix thermal printer (Receipt or journal printing)  
 24 digits (Amount 10 digits/descriptor 8, 12 or 24 digits)  
 Journal: Automatic take up roll winding  
 Print speed: Max. 14 lines/sec.  
 Feed speed: Max. 14 lines/sec.  
 Paper roll: 58 mm × 80 mm Ø (Max.)  
 CASIO P-5880T

## Calculations

Entry 8 digits; Registration 7 digits; Total 8 digits

## Chronological data

Date print: Automatic date printout on receipt or journal  
 Automatic calendar  
 Time print: Automatic time printout on receipt or journal  
 Time display: 24-hour system

## Alarm

Entry confirmation signal; Error alarm

## Totalizers

Category	No. of Totalizers	Contents				Periodic Totalizer
		Amount (10 digits)	No. of items (4 digits)	Count (4 digits)	No. of customers (4 digits)	
Department	96 <sup>*3</sup> /24 <sup>*4</sup>	✓	✓ <sup>*1</sup>			✓

**LIMITED WARRANTY: ELECTRONIC CASH REGISTERS**

This product, except the battery, is warranted by Casio to the original purchaser to be free from defects in material and workmanship under normal use for a period, from the date of purchase, of one year for parts and 90 days for labor. For one year, upon proof of purchase, the product will be repaired or replaced (with the same or a similar model) at Casio's option, at a Casio Authorized Service Center without charge for parts. Labor will be provided without charge for 90 days. The terminal resident software and programmable software, if any, included with this product or any programmable software which may be licensed by Casio or one of its authorized dealers, is warranted by Casio to the original licensee for a period of ninety (90) days from the date of license to conform substantially to published specifications and documentation provided it is used with the Casio hardware and software for which it is designed.

For a period of ninety (90) days, upon proof of license, Casio will, at its option, replace defective terminal resident software or programmable software, correct significant program errors, or refund the license fee for such software. Significant program errors will be significant deviations from written documentation or specifications. These are your sole remedies for any breach of warranty. In no event will Casio's liability exceed the license fee, if any, for such software. This warranty will not apply if the product has been misused, abused, or altered.

Without limiting the foregoing, battery leakage, bending of the unit, a broken display tube, and any cracks or breaks in the display will be presumed to have resulted from misuse or abuse. To obtain warranty service you must take or ship the product, freight prepaid, with a copy of the sales receipt or other proof of purchase and the date of purchase, to a Casio Authorized Service Center. Due to the possibility of damage or loss, it is recommended when shipping the product to a Casio Authorized Service Center that you package the product securely and ship it insured. CASIO HEREBY EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. NO RESPONSIBILITY IS ASSUMED FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION DAMAGES RESULTING FROM MATHEMATICAL INACCURACY OF THE PRODUCT OR LOSS OF STORED DATA. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. This warranty gives you specific rights, and you may also have other rights which vary from state to state.
