TK-6000/6500

Efficient, Sophisticated and Easy to Use

Casio offers the flexibility of the full flat keyboard (TK-6500) for those demanding hospitality operations along with the split keyboard (TK-6000) ideal for combination retail/hospitality operations. Combining the desired keyboard machine with the fast, reliable 2-station dot matrix printer, along with the variety of peripheral connections, make the TK-6000/6500 a viable solution.

Printer

● 45mm wide two station dot matrix printer

- 3.0-lines/second high speed printer
- 4 line x 24-character logo, commercial and trailer messages
- 1 line x 55-digit validation printing
- 16-character item descriptors

● Guest Check Tracking System

The stand alone detailed guest check tracking function provide restaurants with the capability of handling and maintaining customer orders. Up to 200 tables can be maintained in the TK-6000/6500.

● Scanning Function

Both models have the ability to scan up to 5,000 items by adding optional memory chips and loading the latest software.

Essential functions for the scanning environment such as bottle link and Mix & Match functions are also available.
